#### ATHLETES IN GREAT FORM.

JEWETT BREAKS THE WORLD'S REC-ORD FOR THE 220-YARD RUN.

The World's 120-yard Hardle Record Equalled by Morrell of the N. Y. A. C.-A Boy Wonder Runs a Fast Mile-The Canadian Championships a Big Success, MONTREAL, Sept. 24.—The Canadian amateur

athletic championships, which were held on the Moutreal A. A. A. grounds to-day, proved to be the finest athletic meeting ever held in the Dominion. Four thousand enthusiastic Canucks were present to cheer their athletes in the struggle against the invaders from across the border.

In two of the principal events, the one mile

and half mile races, they were successful. G. W. Orton of the Toronto Lacrosse Club, a boy who made his first appearance in the Canadian champions last year, astonished every one present by his great performance in defeating Hiertherg in the one-mile run in the fast time of 4 minutes 21 4-5 seconds, thus reducing the Canadian record by more than five sec-

In short distance races the Canadians depended on H. D. Carr, who holds a record of ten seconds for 100 yards. He was unfor-tunate, however, as after winning his heat easily he broke down in the first twenty yards of the linal heat, which was won rather easily by the Detroit firer, Jewett.
In the two-hundred-and-twenty-yard run

Jewett created a new world's record, which was extremely meritorious, as the race was run over a track with one turn. The time was recorded officially as 21% seconds, but the electrical timing apparatus, which was in use in all the races, registered 21 95-100 seconds. In the 120-yard hurdle race Harry Morrell of the New York A. C. equalled the world's record of 15% seconds, and defeated Puffer, the Met-

repolitan champion, by a yard.

One of the surprises of the meeting was the defeat of W. D. Day in the two-mile run by his clubmate. Hjertberg. Day's number on the programme was the unlucky thirteen. He did not have the number on when he appeared at the mark, but the officials objected to his running without the number properly placed on his back. After quite a dispute he was induced to wear

it. L. C. Carter of the N. Y. A. C. was forced to retire at the end of the mile through his shoe coming off. At the commoncement of the last lap Hiertberg, who had been waiting on Day. spurted. Day held to him for about 150 yards. and then became fainthearted and stopped. The half mile was the best race of the day.

and then became fainthearted and stopped.

The half mile was the best race or the day.

It was won by the Canadian. Waldron, in better time than the previous Canadian record.

All the way down the straight Waldron held the lead by two yards, with Winslow. Turner, Billings, and Gifford racing neck and neck for the place. Winslow beat the Manhattan crack, Turner, for the place at the finish.

The three-mile walk was won by Meek of the Columbia A. C. in 21 minutes 55 seconds although W. Gentleman or Montreal finished in front of him. Gentleman ran all the way, but refused to leave the track when disqualified at two miles. Sweeney of the Navier A. C. broke the Canadian high-jump record in beautiful style.

J. S. Milchell of the N. Y. A. C. was the banner athlote of the day. He won the 10-pound shot, throwing the 56-pound weight, and 10-pound hammer competition. Gray, the champion shot putter, did not compete.

The New York Athletic Club fairly swamped their rivals in the number of points, scoring 43 in all the events. The New Jorksey A. C., with their team of four men, tied the Manhattan A. C. for second honors, with 18 points. The Montreal A. A. and the Detroit A. C. were next, with 10 points ench.

#### At the Handball Courts,

J. J. B. - it is a matter of opinion. They have each won a number of games, and it would take a genuine match to decide the question.

Player. - There is no handball court at either place. The hearest one is at 307 Degraw atreet, Brooklyn, or 51 Chapel street, Newsia.

31 Chapet street, Newara.

Those two old generals, Phil Casey and ex-Alderman Junne, met again on Friday last at the Brooklyn tlub's court, and the champion was again worsted. The playing was done under The See's rules, the service being from the acc line, and the ex-Alderman by superior playing took the big fellow into camp. The secres were: 21-20, 21-10, and 17-21.

sofres were: 21-20, 21-10, and 11-21.

"I am not at all satished with the result on Wednesday last," said ex adderman hume yesterday, "and i still think that Prof. Cognis and myself can beat any pair in the country, but I want to ber Casey." He wishes it to be understood that he is in this thing for keps, and what used to be a go does not stand in this instance. If there are any two men on earth whom the ex-kiderman would rather meet than any others they are Join Lawler and Join Belaney, and he partualist, in the them to come to the front on Wednesday afterneon next.

#### Bled in a Pigsty.

CARMEL, Conn., Sept. 24.-Richard Denny, a well-to-do farmer, 65 years of age, residing near here, fell dead of heart disease on Thursday afternoon while in a pen feeding pigs. his body was not found until yesterday afternoon. It had been trampled upon and half
buried in the mire by the swine. The left ear
had been eaten off, a part of his right hand
was also gone, and all over his body the flesh
was torn off in large patches. The pigs had
become wild and vicious, and fought savagely
for their prey.

#### An Amicable Settlement Expected,

Sr. Louis, Sept. 24,-The telegraphers' committee expect to meet Superintendent Hammond of the Missouri Pacific on Monday and present their schedule of wages. The com-pany is entirely willing to treat with them, and a reasonable advance in wages, with the recognition of their organization, is expected by the me.

Association Funds for the Strikers, HOMESTEAD, Sept. 24.-The locked-out men to-day received their first benefits from the Amalgamated Association. Nearly \$10,000 was paid out. This payment has had a very cheering effect upon the men.

Regatta of the New Utrecht Club. The New Utrecht navy, which is composed princi-ally of members of the New Utrecht Club at Bath Beach, held its inaugural regatts yesterday after in Gravesend Bay. The race was witnessed by a large crowd of spectators both affest and ashore.

Commodore B. F. Satten of the Brooklyn Tacht Club placed his pretty sloop Mull at the disposal of the re-gatta Committe, and she was used as the judges' boat. gatta Committe, and she was used as the judges' boat, Mr. Fierre Lorillard of the steam yacht Reva and Mr. Edward Du Yvien of the steam yacht Reva and Mr. Edward Du Yvien of the steam yacht Emu also did their best to help along the committee.

The race was a success in every way, and some exciting work was witnessed at the finish. When the sharting signal was fred at 325 o'clock there was a light breeze from the southwest, which freshened considerably toward the end. The course for classes B and 6 was from the judge's boat, which was sanchored used for the club home, to a stake boat anchored off Fort Hamilton, thence to a stake boat anchored off Fort Hamilton, thence to a stake boat anchored off Norton's Point, and home, the course to be sailed over twice. Distance, about hise miles.

The sloops went to Buoy 11, Norton Point, and home. There were ten starters in all and they crossed the line in the following order: Iroquots, 3:25:24; Ida, 3:25:42; Coquette, 3:20:18; Juanita, 3:33:25; Homing, 3:38:44; then the Ariel, Edda D, Isabel, and Willle T, in the order named.

The winners were: Class B, Edda D; class C,

The Needle Did Not Point Enough, and Lost POTGREEFFSIE, Sept. 24.-There was another sailing regatta at New Hamburgh this afternoon over a six teen mile course. The first class yachts coming to the line were: Edgar's Marjorie of Newburgh, Tower's Needle, Grinnell's Fldget, and Rose's Maud B.of Roseton Needle, Grinnell's Flaget, and Rose's Mand B. of Rose or The yachts of the second class were: Jehn Van Wyck's Orient of New Hambursh. Henry Jora's Tixtlis of Roseion, and Tempie Rodwin's Taiofee of New Hamburgh. The Needle crossed the line first, Taiofee second; then came the Mand B. and Orient. After all got away, the Needle outpointed them all and opened a big gap, with the Orient doing good werk and holding second place. The Mand B. was third. When the Needle turned the lower stake her jib was ballooned and spinnaker set. The Mand B. bad got into second place. When they crossed the finish line the Needle was 3 minutes 30 seconds abead of the Mand B. The Mand B. kept closing on the Needle, and was only 1 minute 45 seconds behind her at the upper stake.

Coming down the river it was a fine race between the Needle and Mand B. At New Hamburgh the Mand B. parsed to windward and took a ions jet to the southeast, going about below old Troy, where she was nearly a quarrer of a mile ahead of the Needle. Coming north the last time the Mand B. was twenty minutes ahead of the Needle. The finish was as follows:

Mand B. 5 hours 54 minutes 15 jacconds: Needle, 6 hours 6 minutes 10 seconds; triotic, 6 hours 20 minutes 10 seconds; Taiofee, 6 hours 24 minutes 35 seconds: Tixtlia, 6 hours 25 minutes 15 seconds. This gave the first class prize to the Mand B. and the second class prize to the Urient. The yachts of the second class were: Jehn Van Wyck's

The Football Prospects at Williams,

Williamstown, Sept. 24 .- It is evident at present that Williams will not be so strong at football as last year-yet Amherst and Dartmouth, her rivals for the pen nant, appear to be in a like position. The team must be made up mainly of last year's substitutes and nor ien. Capt. Garfield, '93, has beld two practice game thus far, in which about thirty men took part. The work consisted in rushing and punting. Although several of the freshmen showed themselves capable of putting up a still game, no men of marked merit were to be seen. The players were coached by Richards, who payed full back on the Yale Varsity team seven years ago, and has since coached the Yale team. He sinceded in putting a good deal of since team, He sinceded in putting a good leal of since in the since were the services for the least of the since were the services for the least of the since were the services for the least two years, will take the team in band and give them more lessons in that trackery which has wen so many games for Williams.

It is too earity yet to speak of the make-up of the team, but the following comes as near as it is now possible to give. Left ead, Tayior, 195, Bruce, 194, or branch, 195, center, 195, center, Perkins, 196, or Sawtelle, 195, right guard, Sawtelle or Bruce; right tackle, Townsend; right guard, Sawtelle or Bruce; right tackle, Townsend; right end. Emins; quarter back, Babbitt, half back, Garffeld and Simmons, lide or Evans, Tall back Townsend examples. It looks as if the team would be weak at centre and behind the line.

Capt, diarfield will begin active practice at once. Instead of running several miles each day, as in former years, the men will spend their extra time in kicking, passing, and tackling. The schedule has been nearly arranged. eral of the freshmen showed themselves capable of

In pursuance of the policy announced se time back, to avoid making THE SUN'S Guide to New York bulky with advertisements, it has been decided to stop taking advertisements for the general run of the book. There are still a few preferred pages to be disposed of. The Guide will be illustrated with twelve bird's-eye views of New York, and the backs of these double plates, 25 pages, will carry the only display advertising in the body of the book. Some of these have been sold, and those who wish to have any of the others should apply at once to the Guide Book Department of THE NEW YORK BUN. MASCOITE'S WONDERFUL RACE. He Beats Cay in Straight Heats-Time 2:08 1-4, 2:07, 2:07 8-4.

COLUMBUS, Ind., Sept. 24.—The pacer Mas-cotte proved himself the fastest harness racer by his performance here to-day, when he equalled the kite-track record of 2:07 and put in three heats at the rate of 2:07 and put in three heats at the rate of 2:07%. In his fastest mile the quarters were :32%, 1:04. 1:36, 2:07, and he paced the second quarter of the last heat in 31 seconds. At no time was the gelding strung out, and it is an open question whether Hal Pointer or Firing Gib have any business with him. Guy was the contending horse this afternoon, but was not able to do more than make close fin-ishes with Mascotte. Vinette showed a lot of speed, and by Starr's aid got third place over Major Wonder. The other races were not sensational, though Flowing Tide and Ariah won creditable victories, both getting new records. Eura entered the 2:20 list of trotters, as did Wheatland and

Queer Encing at Hawthorne, CHICAGO, Sept. 24.-Four favorites won at Hawthorne to-day, and the racing was of an exciting character. Emma captured the first prize easily, but Santa Ana, with odds of 3 to 1 on had to run hard to best Centella. Oregon Eclipse had only to gallop to win the six fur-longs, but it might have been different if Tom Griffin, through a mistake, had not pulled up Griffin, through a mistake, flat more purious uppended indefinitely.

The finish for the mile and a sixteenth was a grand one, Billy Pinkerton winning by a nose, with Torrent the same distance in front of Chapman. The crowd dissented from the judges' decision and raised a row. Consignee beat Recherche by a neck, after a hard struggle in the stretch, and Bassanio won the hurdle race, with Hardee second. Cuchara was third. Molnerny claimed a foul against Hardee, but it was not allowed. Special fell.

Mr. Hart's Terrible Fall.

The run of the Richmond County Hunt yesterday fternoon was marred by a severe accident to one of the members. The meet was at the club house on the ittle Clove road, and the trail led over a stiff course to New Dorp. In taking a four-barred fence along the old town road, the horse ridden by James A. Hart of West New Brighton fell.

Hart's foot caught in the stirrup and the horse rolled upon him, breaking his left arm in two places. Hart was taken to his home, and Dr. Van Reusselaer pronounced his injuries not fatat.

UNION PACIFIC FINANCES, Annual Report of Government Directors

-Obligations Nearing Maturity. WASHINGTON, Sept. 24.-The Government Directors of the Union Pacific Railroad Company to-day submitted their annual report to the Secretary of the Interior. The report says that the prosperity of the railway system is in the highest degree satisfactory and that the roadbed and equipments have been fully maintained and improved.

The general business of the company as shown by both gross and net receipts has improved and promises a very gratifying increase of earnings for the current year. For the Union Pacific Railroad proper, the earnings and expenses for the six months ending June 30, 1832, have been as follows:

Farnings 58,037,000 \$8,009,330 Inc, \$272,272 Expenses 5,342,839 5,184,405 Dec, 158,374 Surplus 3,294,220 3,724,867 Inc, 430,647 For the entire system for the same period: Earnings ... \$10,447,365 \$10,978,273 Inc. \$540,907 Expenses ... 13,653,943 18,494,504 Bec. 159,438 Surplus ... 5,783,420 0,437,758 Inc. 704,348 Earnings ... \$19,437,365 \$19,578,273 Inc. \$40,907 Expenses ... \$13,533,543 13,445,054 Inc. 159,438 surplus ... 5.783,420 6.437,755 Inc. 704,348 For the present the company has no floating debt and is amply able to meet its interest and sinking fund charges from its earnings, but the maturity of collateral notes, the debt due the United States, and the first morigage bonds present a grave situation. Notwithstanding the request of the Government Directors, the report continues, none of them was placed upon the committee to administer the collateral note trust, and they are without original information as to its present condition. They are informed, however, that of the notes authorized there was issued \$18,530,000, of which assets \$332,000 have been paid, leaving a balance now outstanding of \$18,181,000 having less than two years to run. The report again urges that the present state of uncertainty in the relations of the Government and company be brought to an end, as it is disastrous to the security, the company, and the general public. Upon a fair and just arrangement for the extension of the debt due the Government, there is no reason, says the report, why the amount cannot be amply secured and finally paid in full, but the chances for securing this result are not improved through non-action or by allowing the credit of the company to be hopelessly broken or even seriously impaired. On the other hand, the sooner an agreement is reached, and all the resources of private capital invited and secured at low rates of interest to extend, improve, strengthen, and develop the system, the more certainly will the Government be secured, and the ability of the company to pay be firmly established.

ompany to pay be firmly established.

Diliman Bled of Glanders. The medical staff of St. Catharine's Hospital in Williamsburgh is greatly interested in the case of Peter Dillman, the Barren Island omployee who died in that institution on Thursday of glanders. An autopsy has been made. and an eminent pathologist of Brooklyn is engaged in a tacteriological examination in order to make a comparison of the germs with those taken from the horse which billman was skin ning two weeks ago, and which had died of Dr. W. G. Somerville of St. Catharine's Hos-

glanders.

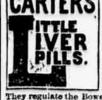

Dr. W. G. Somerville of St. Catharine's Hospital told a Sun reporter yesterday that the autonsy on Dillman's body showed that Dillman had suffered with malaria before he contracted the glanders.

"The case is a remarkable one," said Dr. Somerville, "and the first that has ever come under our observation. The doctor who is making an examination will probably let us know the result by Sunday. That Dillman died of the glanders there is now not the slightest doubt."

Dillman was 28 years old, and had been employed in the Barren Island fertilizing factories for several years. He was frequently warned to be careful when skinning dead animals not to cut or bruise himself. For two days before his death he suffered intense agony.

HOW TO ROLL AN UMBRELLA.

Almost Everybody Does It the Wrong Way, Although the Hight Way is Simple. "No. not that way! I never knew one man in a hundred to do it right," said the clerk in

the umbrella store. His remarks were directed at a customer. who had proceeded to roll up a recently pur-chased umbrella to return it to its case. He nors of 75 Longworth street was also seriously had done what 60 per cent. of persons who | ill. The victims are scattered throughout the handle umbrellas do when they attempt to gather the folds of cloth in a neat roll around the stick. He had grasped the handle with his right hand and was twisting the silk

through with his left hand. "That will spoil that umbrella when you have repeated the operation half a dozen times," the clerk continued. "and then you will be coming here and complaining that that \$6 umbrella wasn't worth 50 cents. Now. see what you were doing! You were making a pretty roll, but did you notice that you were twisting the ribs and braces in a spiral around

twisting the ribs and braces in a spiral around that stick as well as the cloth? You may have noticed that your umbrella sticks and catches when you try to raise it. That's because you don't know how to roll it. You twist the joints of the ribs and braces all out of shape. There, you see, you have twisted the ends of those ribs all around in a bunch on one side of the handle. Now let me show you how an umbrella should be rolled."

The clerk took the maltreated article, shook out the folds of slik, and worked the chiral out of the ribs, and proceeded to demonstrate the proper methods of umbrella rolling, Grasping the handle in his right hand, he encircled the slik at the tip with his left, which he slipped down about half way of the cloth, pressing the ribs and braces firmly against the stick. The right hand was then shifted to the tips of the ribs, which were held firmly against the stick, while the left hand adjusted the roll of cloth around them. By this method the ribs were kept straight along the stick and not partly twisted around it, as the customer's roll.

The Hotel Men at Portress Monroe May Not Have to Move.

WASHINGTON, Sept. 24.-Hostilities between the War Department and the hotel proprietors at Fort Monroe, Va., have been temporarily suspended, pending a settlement of the trouble over the order of the department directing the establishment of a new sewerage system on the Government reservation at the fort. The department has decided to issue an order extending the time for putting in the sysextending the time for putting in the system. The time of extension will probably he thirty days. This action has been taken in view of an agreement on the part of the proprietors of the Hygeia Hotel to accept the plans of the War Department, and the additional time will be granted to allow an agreement to be reached with them as to the relative nability of the property holders for the expenses incurred.

The department has agreed to require the new Chamberlin Hotel to adopt the new system, because the building is in an unfinished condition, and the proprietors will not be permitted to open the hotel until its sewage system is approved by the department. tem is approved by the department.

tire west end of the city. The first reports came in late last night from the Healy family. Three patrol wagons were sent to the scene, and it was found that the entire family were suffering untold agonies. There were seven of them. William Healy was found to be so ill that he was removed to the hospital. Immediately follow-

moved to the hospital. Immediately following the report from the Healy house came announcements in quick succession from all over the west end, which is the most thickly populated portion of the city. Patrol wagons were kept husy answering calls, and all the physicians in the neighborhood were pressed into service.

Many of those who are afflicted purchased the milk from a grocery store on Eim street. Others secured it from milk wagons. It was all of a light blue color. The greatest excitement prevailed throughout the afflicted district, as rumors have been plentiful that the cholera had suddenly appeared here and seized victims by the score. The health offlicers have samples of the milk, and are at work analyzing it. Drs. W. D. Smith and S. W. Feltor say unhesitatingly that there was arsenic in it. The dairymen who furnished the milk will be arrested.
